Dear Sir,

This package is a resubmission of a patent that I placed in the priority mail yesterday, 29 Nov 2001 (see attached receipts). When I tried to use the postal express mail service yesterday to get this package to the PTO by close of business 30 Nov 2001, I was told the postal service could not deliver express mail packages to your zip code. I needed to get the formal Patent to your attention prior to 30 Nov 2001 to retain my rights to the filing date for a PPA on the same subject filed one year ago. When I tried to use the FedEx service, they told me they could not deliver to the address listed, since they need a building no., street no., POC and POC phone number. I went back to the postal service and sent the original package priority mail, certified on Nov 29 2001, but the postal service will not get the package to your facility until Saturday 1 Dec, or Monday 3 Dec 2001, missing the one year period of retention for my PPA which terminates 30 Nov 2001.

I sincerely hope the attached receipts showing I had this patent in the postal service to your office on the 29<sup>th</sup> of Nov, and the moratorium on express mail to your zip code, allows me to continue processing the formal patent effective the date when I submitted my PPA, 30 Nov 2000.

Thank you

William Duda

The undersigned respectfully requests that this disclosure be accepted and retained for two years (or longer if it is later referred to in a paper filed in a patent application) under the Disclosure Document Program and that the enclosed postcard be date stamped, numbered and returned.

The undersigned understands that (1) this disclosure document is neither a patent application nor a substitute for one, (2) its receipt date will not become the effective filing date of a later-filed patent application, (3) it will be retained for two years and then destroyed unless it is referred to in a patent application, (4) this two-year retention period is not a "grace period" during which a patent application can be filed without loss of benefits, (5) in addition to this document, proof of diligence in building and testing the invention, and/or filing a patent application on the invention, may be vital in case of an interference, and in other situations, (6) if such building and testing is done, signed, and dated, records of such should additionally be made and these should be witnessed and dated by disinterested individuals (not the PTO), and (7) if any public use or sale of the invention is made in the U.S., or any publication is made anywhere, no valid patent can be granted on the invention unless a patent application is filed on it within one year of any such public use, sale or publication, regardless of the filing date of this Disclosure Document.
